IDENTIFIERS Public Colleges; United States

ABSTRACT

Data on 1983 college and university enrollments and trends for the past few years are presented. Information is provided on higher education enrollments by control and level of institution, sex of students, and full- or part-time attendance status. Trends in enrollment during 1976-1983 for the 50 states and the District of Columbia are included. Data are included for first-time freshmen, undergraduate, graduate, first-time graduate, and first-professional students. The following types of postsecondary institutions are included: public, private, private nonprofit; and private proprietary institutions; as well as doctoral-level, comprehensive, general baccalaureate, specialized, two-year, and new institutions. In addition to full-and part-time enrollments, data are included on full-time equivalent of part-time enrollment. The following facts are highlighted: the number of two-year schools was up 5.4 percent, while the number of comprehensive and specialized institutions increased more than 2 percent each; two-year institutions accounted for most of the overall enrollment growth; between fall 1982 and 1983, virtually no change in part-time enrollment occurred; and the number of first-time freshmen declined. Appendices include information on the study methodology, definitions of the types of institutions, and the questionnaire. (SW)

FOREWORD

This edition of *Fall Enrollment in Colleges and Universities* presents data collected by the National Center for Education Statistics (NCES) through its 1983 survey of the Nation's colleges and universities. This year's report does not include racial/ethnic data or field-of-study data; that information will be collected for fall 1984 and reported in the next edition.

We wish to thank the many college and university officials who report these essential statistics annually, as well as the coordinators in the States for providing assistance wherever possible. Without their cooperative efforts, this report would not be possible.

Richard E. Carlson
Assistant Administrator
Division of Postsecondary and
Vocational Education Statistics

DETAILED TABLES

Trends in fall enrollment: 50 States and D.C., fall 1976-1983

1. By sex, institutional control, and enrollment category 5

Enrollment in institutions of higher education: 50 States and D.C., fall 1980-83

2. By control and type of institution and sex of student 6
3. By control and type of institution and attendance status of student 8

4. By control, level, and sex of student 10
4A. By control, level, and attendance status of student 11
5. First-time freshmen, by control and type of institution and sex and attendance status of student 12

Enrollment in institutions of higher education, by attendance status, sex, full-time equivalent (FTE) of part-time enrollment, and type of institution: 50 States and D.C., fall 1982 and 1983

6. Total enrollment 13
A. In public institutions 14
B. In private institutions 15
C. In private, nonprofit institutions 16
D. In private, proprietary institutions 17

7. Undergraduates enrolled 18
A. In public institutions 19
B. In private institutions 20
C. In private, nonprofit institutions 21
D. In private, proprietary institutions 22

8. First-time freshmen enrolled 23
A. In public institutions 24
B. In private institutions 25
C. In private, nonprofit institutions 26
D. In private, proprietary institutions 27

9. First-professionals enrolled 28
A. In public institutions 29
B. In private institutions 30
C. In private, nonprofit institutions 31
D. In private, proprietary institutions 32

10. Graduates enrolled 33
A. In public institutions 34
B. In private institutions 35
C. In private, nonprofit institutions 36
D. In private, proprietary institutions 37

11. First-time graduates enrolled 38
A. In public institutions 39
B. In private institutions 40
C. In private, nonprofit institutions 41
D. In private, proprietary institutions 42

Enrollment in institutions of higher education, by control and type of institution, sex and attendance status of student, and full-time equivalents: 50 States and D.C., fall 1983

12. Total enrollment 43
    A. Undergraduate 44
    B. First-professional 45
    C. Graduate 46
    D. Unclassified 47
    E. First-time freshmen 48

Enrollment in institutions of higher education, by sex and attendance status of student, full-time equivalent (FTE) of part-time enrollment, and State or other area: Fall 1983

13. Total enrollment 49
    A. Undergraduate 50
    B. First-professional 51
    C. Graduate 52
    D. Unclassified 53

14. In public institutions 54
    A. Undergraduate 55
    B. First-professional 56
    C. Graduate 57
    D. Unclassified 58

15. In private institutions 59
    A. Undergraduate 60
    B. First-professional 61
    C. Graduate 62
    D. Unclassified 63

16. First-time freshmen 64

17. Enrollment in institutions of higher education, by type and State or other area: Fall 1983 65
    A. In public institutions 66
    B. In private institutions 67
    C. In private, nonprofit institutions 68
    D. In private, proprietary institutions 69

18. Enrollment in the 100 largest public institutions, by level of enrollment, attendance status, and sex of student: Fall 1983 70

19. Enrollment in the 50 largest private institutions, by level of enrollment, attendance status, and sex of student: Fall 1983 75

APPENDIX TABLES

A-1. Number of institutions of higher education, by type and control: 1980-83 87

A-2. Imputation for nonresponse in institutions of higher education: Fall 1983 88

HIGHLIGHTS

- The enrollment growth enjoyed by our Nation's colleges and universities during the 1970's and early 1980's seems to have ended as the number of students attending college remained relatively level in fall 1983. Total enrollment reached 12,465,000, up only 0.3 percent between 1982 and 1983, following a 0.4-percent gain the previous year.
- The number of 2-year schools increased by 65, up 5.4 percent, while the number of schools in the comprehensive and specialized categories increased more than 2 percent each. Only the number of general baccalaureate schools dropped, down 2.3 percent from 1982.*
- Two-year institutions continued to account for most of the overall enrollment growth as they have since 1978, up 1.3 percent, or nearly 60,000 students in fall 1983. Comprehensive institutions reported the next largest absolute increase with 40,000 more students. The largest rate of increase occurred among the specialized schools (i.e., those with a programmatic emphasis in one area of study), up 4.1 percent between 1982 and 1983; however, these schools enrolled less than 5 percent of all students attending institutions of higher education.
- Between fall 1982 and 1983, virtually no change occurred in part-time enrollment—the first time in 7 years that the number of part-time students did not rise. Since 1976, part-time enrollment has increased at a faster rate (2.4 percent annually) than full-time enrollment (1 percent per year).
- Public institutions of higher education enrolled 9.7 million students again in 1983, the same 78 percent share of the total as in previous years. Private institutions realized a gain of 2 percent over 1982 totals, as nearly 2.8 million students enrolled in fall 1983. Much of this growth took place in the 2-year schools and the comprehensive institutions. Schools in the doctoral-level and general baccalaureate categories reported slight declines.
- The number of first-time freshmen continued to decline across the Nation as fewer new students were available from the traditional 18-24-year-old age group. First-time numbers declined from a peak enrollment of 2.6 million in 1981 to slightly more than 2.4 million in 1983. All of the decline seems to have occurred in the public sector, with 2-year schools reporting the most significant drops. Two-year schools in the private sector reported sizeable gains in the number of first-time freshmen enrolled in 1983, up nearly one-third over the 1982 total. The bulk of this growth occurred in the proprietary schools, while 2-year nonprofit schools reported a 12-percent increase in first-time freshmen in 1983.

*This highlight and following highlights and tables reflect the new HEGIS classification of institutions. For explanations of the new classification system and categories see Introduction and Methodology.

INTRODUCTION

Data in this report are derived from the 1983 survey of Fall Enrollment in Institutions of Higher Education, conducted by the National Center for Education Statistics (NCES). This survey was part of the 18th annual Higher Education General Information Survey (HEGIS) program. The universe in 1983 consisted of 3,330 institutions and their branches. Responses were received from 3,242 colleges, or 97.4 percent of the universe. In addition, data were imputed for 88 schools. Data imputed for nonresponse accounted for only 1.1 percent of the total enrollment reported in 1983. (See appendix C for a table of imputations and rates.) The statistical tables in this report cover 3,284 institutions located in the 50 States and the District of Columbia. The State tables include data for the additional 46 institutions surveyed in outlying areas (Guam, Puerto Rico, etc.).

The new classification of institutions adopted by NCES during the 1981-82 academic year is reflected in the tables. Institutions are identified as doctoral-level, comprehensive, general baccalaureate, specialized, 2-year, or newly added (to the HEGIS universe). New schools remain in this category until they have filed 2 years of earned degree data and their classification category can be determined based on the actual number of degrees awarded and the number of programs in which they were awarded. Detailed tables use only the new HEGIS classification; selected tables using the old classification (university, other 4-year, and 2-year) are available on request from NCES.

Note that detailed institutional data gathered as part of the surveys are not published in this report. Only summary tables are included. They provide institutional information by level of enrollment, sex and attendance status of students, and they rank institutions with the largest enrollment in 1983 for both the public and private sectors.

Care should be exercised when using the tables. The percent changes associated with the category "new" are deceiving because they reflect: 1) the addition of schools new to the universe and 2) the removal of institutions that were pending classification to another category. Thus, the tables do not reflect actual enrollment increases. The base on which the enrollment growth is calculated is continually changing. Appendix table A-1 shows the number of institutions in this category between 1980 and 1983.

METHODOLOGY

SURVEY BACKGROUND

This publication contains the results of the 1983 survey, "Fall Enrollment in Institutions of Higher Education," conducted by the National Center for Education Statistics (NCES) as part of the 18th annual Higher Education General Information Survey (HEGIS) program. Most institutions recognized by the Secretary of Education as accredited and listed in the *Education Directory, Colleges and Universities, 1983-84* provided information for the survey. For those few cases where data were not provided, they were imputed based on a previous year's response or on data from a peer institution.

Data in the detailed tables are for all institutions located in the 50 States and the District of Columbia, except for the State tables, which include statistics for schools in the outlying areas. Tables 1 through 19 present data using the new classification of institutions; schools were classified as either doctoral-level, comprehensive, general baccalaureate, specialized, 2-year, or new to the universe. Definitions of these categories are in appendix B. Comparable tables using the old classification of institutions (university, other 4-year, and 2-year) are not presented here, but are available from NCES on request.

THE UNIVERSE

The universe for the 1983 enrollment survey consisted of the 3,284 institutions of higher education and their branches in the 50 States and D.C., and 46 institutions in the outlying areas. Table A-1 shows the total number of institutional units in the 1983 universe. Data from 1980 through 1982 are included for comparison.

Data have been compiled annually as part of the HEGIS program since 1966, and the origins of the fall enrollment survey extend back to the early 1900's. The survey instrument has not changed appreciably since 1976, thus preserving the reporting consistency needed for statistical analyses. The 1983 enrollment survey requested data by attendance status (full- or part-time), enrollment level (undergraduate, first-professional, graduate, or unclassified), and sex of student. Racial/ethnic data will be collected on the fall 1984 survey. The institutional reporting of data also allows for compilation by State, control (public, nonprofit, proprietary), type of institution, and other institutional characteristics that lend to analysis.

QUESTIONNAIRE EDITING

The survey forms, 2300-2.3A for 4-year institutions and 2300-2.3B for 2-year institutions were mailed either to State coordinators for distribution or to institutions directly in States with no coordinators. The survey carried a due date of October 15, 1983.

Each response to the 1983 survey was edited for internal consistency (add checks) and consistency with the previous year's response (tolerance checks). Data editors resolved errors and contacted institutions to clarify problems they could not resolve. These procedures eliminated the larger reporting errors; however, variances still exist reflecting changes in definitions, reporting practices, or institutional policies.

RESPONSE RATE

The 1983 survey yielded an institutional response rate of 97.4 percent. For the 88 institutions that did not respond, data were imputed based on their 1982 response or on information from a peer institution.

For institutions that responded to the survey, partial imputation was made for item nonresponse using the 1982 survey response where possible. Where full-time equivalents (FTE) were not provided, data were imputed or generated at 0.33 of the part-time total.

APPENDIX

B

NCES CLASSIFICATION OF INSTITUTIONS OF HIGHER EDUCATION

GENERAL

The following categories A through D cover institutions that grant more than 25 percent of their degrees at the baccalaureate level or above. Institutions in category E grant 75 percent or more of their awards below the baccalaureate level. Category F is for new institutions.

A. Doctoral-level Institutions

These are institutions characterized by a significant level and breadth of activity in and commitment to doctoral-level education as measured by the number of doctorate recipients and the diversity in doctoral-level program offerings. Included in this category are institutions that are not considered specialized schools (see category D below) and that grant a minimum of 30 doctoral-level degrees. These degrees must be granted in three or more doctoral-level program areas* or, alternatively, have an interdisciplinary program at the doctoral level. Included in the counts of doctoral degrees for classification purposes are the following first-professional degrees: M.D., D.D.S., D.O., and D.V.M. All of these are in a single program area, health professions. One other type of institution is also classified as doctoral; any institution that meets all other criteria for being so classified, except for the number of doctorates, and grants *only* doctorates, is classified as doctoral-level.

B. Comprehensive Institutions

These institutions are characterized by diverse postbaccalaureate programs (including first-professional), but do not engage in significant doctoral-level education. Specifically, this category includes institutions not considered specialized in which the number of doctoral-level degrees granted is less than 30 or in which fewer than 3 doctoral-level programs are offered. In addition, these institutions must grant a minimum of 30 postbaccalaureate degrees (master's, doctor's, and first-professional) and either grant degrees in 3 or more postbaccalaureate programs or, alternatively, have an interdisciplinary program at the postbaccalaureate level.

C. General Baccalaureate Institutions

These institutions are characterized by their primary emphasis on general undergraduate, baccalaureate-level education. They are not significantly engaged in postbaccalaureate education. Included are institutions not considered as specialized and those in which the number of postbaccalaureate degrees granted is less than 30 or in which fewer than 3 postbaccalaureate level programs are offered and which either (a) grant baccalaureate degrees in 3 or more program areas, or (b) offer a baccalaureate program in interdisciplinary studies.

D. Specialized Institutions

These are baccalaureate or post baccalaureate institutions characterized by a programmatic emphasis in one area (plus closely related specialties), such as business or engineering. The programmatic emphasis is measured by the percentage of degrees granted in the program area. An institution granting over 60 percent of its degrees in one program area, or granting over one-half of its degrees in one program area *and*

*Programs, or program areas, are major fields of study defined at the two-digit level (such as *12*00) of the HEGIS Taxonomy of Programs, plus closely related specialties. Subsequent references to program areas refer to this definition.

granting degrees in fewer than 5 baccalaureate program areas, is considered to be a specialized institution. (The U.S. Service Schools are also considered specialized.)

E. 2-Year Institutions

These are institutions that confer at least 75 percent of their degrees and awards for work below the bachelor's level.

F. Institutions Newly Admitted to HEGIS

These are institutions that have been recently admitted to the Higher Education General Information System universe (NOT necessarily newly organized). As soon as degree and award information becomes available to NCES, these institutions will be reclassified.

Appendix C: Tables

Table A-1.—Number of institutions of higher education, by type and control: Fall 1980-83

Higher Education General Information Survey (HEGIS XVIII)

FALL ENROLLMENT IN INSTITUTIONS OF HIGHER EDUCATION – 1983

This form is authorized by law (20 U.S.C. 1221 e-1). While you are not required to respond, your cooperation is needed to make the results of this survey comprehensive, accurate, and timely.

DUE DATE: OCTOBER 15, 1983

1 NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT *(See Definitions of Institutions on this page) (Include city, State and ZIP code)*

2 PICE CODE NUMBER

3 NAME AND TITLE OF RESPONDENT

4 TELEPHONE NUMBER OF RESPONDENT
(area code, local number, and extension)

5 PLEASE NOTE THAT EACH INSTITUTION, BRANCH, CAMPUS OR OTHER ENTITY SEPARATELY CERTIFIED BY THE ELIGIBILITY AND AGENCY EVALUATION STAFF OF THE U.S. DEPARTMENT OF EDUCATION, WITH ITS OWN FICE CODE, AND LISTED SEPARATELY IN THE EDUCATION DIRECTORY–COLLEGES AND UNIVERSITIES, SHOULD BE REPORTED ON A SEPARATE SURVEY FORM AND NOT INCLUDED OR COMBINED WITH ANY OTHER SUCH CERTIFIED UNIT. BRANCHES, CAMPUSES, AND OTHER ORGANIZATIONAL ENTITIES NOT SEPARATELY CERTIFIED SHOULD BE INCLUDED WITH THE APPROPRIATE INSTITUTION OR BRANCH REPORT. IF SUCH ARE INCLUDED IN THIS REPORT, PLEASE LIST THEM BELOW.

ARE DATA FOR THIS UNIT INCLUDED IN THIS REPORT?	NAME OF BRANCH AND/OR OTHER CAMPUS	ADDRESS (CITY, STATE, AND ZIP CODE)
☐ YES ☐ NO		
☐ YES ☐ NO		
☐ YES ☐ NO		

6 IF THE EDUCATIONAL ORGANIZATION OR ENTITY COVERED BY THIS SURVEY REPORT IS PART OF A MULTI-CAMPUS INSTITUTION, OR PART OF A SYSTEM OF INSTITUTIONS, PLEASE ENTER THE NAME OF THE INSTITUTION OR SYSTEM BELOW. IF NOT APPLICABLE, CHECK HERE: ☐

Definitions of Institutions

Institutional System. A complex of two or more institutions of higher education, each separately organized or independently administered, under the control of a single administrative body.

Multi-Campus Institution. An organization resembling an institutional system, but clearly designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses.

Main Campus. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. (Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is understood to be the location of the central administrative office.)

Branch Campus. A campus of an institution of higher education which is located in a community different from that of its parent institution, that is, beyond a reasonable commuting distance from the main campus of the parent institution. To be considered a branch campus, rather than an extension center, the educational activities at the location must be organized on a relatively permanent basis (i.e., have a relatively permanent administration) and include course offerings for one or more complete college-level programs of at least one full year.

INSTRUCTIONS AND DEFINITIONS

GENERAL INSTRUCTIONS

Proofread the completed report before returning it to the National Center for Education Statistics.

This report should include students taking work creditable toward an associate, bachelor's, or higher degree, or those students enrolled in a vocational or technical program that is normally terminal and results in some other formal recognition below the baccalaureate.

If exact counts are lacking for a particular category of students that should be reported, include an estimate for the group and indicate with an "E" following the number estimated.

Do NOT fill out separate forms for extension centers. Only campuses with their own FICE code numbers should be reported on separate questionnaires. Extension students should be reported on the form for the main campus.

Do NOT include in this report:

(a) Students in noncredit adult education courses and noncredit extension courses.

(b) Students taking courses at home by mail, radio, or television where the course(s) are not creditable toward a bachelor's degree or some other formal recognition below the baccalaureate.

(c) Auditors.

(d) Students studying abroad if their enrollment at the institution is only an administrative record and the fee is only nominal.

(e) Students in any branch campus or extension center in a foreign country.

(f) High school students taking college courses.

(g) Students known to be enrolled concurrently at another college or university, if the latter will report their enrollment *(to avoid double-counting)*. Normally, the institution that will eventually grant the degree should report the student's enrollment.

NOTE: No matter what the calendar system, report on this questionnaire only those students enrolled during the FALL TERM.

If you need CLARIFICATION of any item on the questionnaire that pertains to fall enrollment, call the Survey Director, Mrs. Susan G. Broyles, NCES, (301) 436-6425.

DEFINITIONS

UNDERGRADUATES. Students enrolled in a 4- or 5-year bachelor's degree program, in an associate degree program, or in a vocational or technical program that is normally terminal and results in formal recognition below the baccalaureate.

CLASS LEVEL. Whether first-year, second-year, etc. should be determined in a logical, consistent, and identifiable way. Usually a student's class level would be based on the proportion of total requirements he has obtained toward the completion of the degree program in which he is enrolled, according to the number of years normally required to obtain them.

FIRST-TIME FRESHMEN. Entering freshmen who have not previously attended ANY college. Include students enrolled in the fall term who attended college for the first time in the summer of 1983. Also include students who entered with advanced standing (college credits earned before graduation from high school) at the freshman level.

OTHER FIRST-YEAR. First-year students who entered the institution before the summer of 1983.

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses for credit in regular classes with other students.

UNDERGRADUATE LEVEL. Includes but is not limited to undergraduates who cannot be classified by class standing; for example, new transfer students. Also included are students who already have bachelor's degrees or awards below the baccalaureate but are taking courses at the same level or lower. Included also are "special students" and teachers taking additional undergraduate courses for certification.

POSTBACCALAUREATE LEVEL. Includes but is not limited to "special" and other students taking first-professional or graduate courses but who are not working toward a degree.

FIRST-PROFESSIONAL STUDENTS. Students enrolled in a professional school or program which required at least 2 academic years of college work for entrance and a total of at least 6 years for a degree. Report only students in those first-professional degree programs in the fields of chiropractic, dentistry, law, medicine, optometry, osteopathy, pharmacy, podiatry, theology, and veterinary medicine as specified in Part B of ED (NCES) Form 2300-2.1A, Degrees and Other Formal Awards Conferred. Students in programs requiring only 4 or 5 years beyond high school should be reported as undergraduates.

GRADUATE STUDENTS. Students who hold the bachelor's or first-professional degree, or equivalent, and are working toward a master's or doctor's degree.

FIRST-TIME GRADUATE STUDENTS. A student who is enrolled at the graduate level for the first time and who has not previously attended any other college as a graduate student. Include graduate students enrolled in the fall term who attended graduate school for the first time in the summer of 1983.

ALL OTHER GRADUATE STUDENTS. All graduate students who are not first-time.

FULL-TIME STUDENTS. Those whose academic load (course work or other required activity) is at least 75% of your institutions's normal full-time load.

FULL-TIME-EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Convert part-time students *(lines 13-28)* into full-time equivalents by one of the following and indicate the method used by circling 1, 2, or 3 below:

(1) Use a method already employed in your institution to compute FTE's for some other purpose.

(2) Sum the credit hours for part-time students and divide by the normal full-time credit-hour load. NORMAL FULL-TIME CREDIT-HOUR LOAD is usually determined by dividing the total number of credits required for completing the program by the institutionally defined length of program in terms, or by the number of terms required of a fully-engaged student to obtain such credits. Do not confuse this with the minimum number of credit-hours required for a student to be classified full time (75% of a normal full-time load). NOTE: Divide by the normal full-time load, not by the minimum full-time load. For most institutions, this will be 15 credit-hours (not 12).

(3) Assign a fractional value of full-time to each part-time student, appropriate to your institution, such as 1/4, 1/3, or 1/2. Remember that a student taking 3/4 (75%) or more of a normal full-time load should be classified as a full-time student.

NOTE: In all cases Full-Time-Equivalent (FTE) enrollment of part-time students should be reported as whole numbers (lines 15-28, column 15).

(continued)

RACIAL/ETHNIC CATEGORIES

The shading in columns 1-12 indicates that NCES is not requiring completion of these columns for 1983. However, the format of the 1982 questionnaire has been retained for use by State education agencies, central systems offices, and other units that would ordinarily collect these data anyway, and so that institutions with computer-generated data bases can utilize the programming developed to produce the data for the 1982 survey.

Racial/ethnic designations as used in this survey do not denote scientific definitions of anthropological origins. For the purpose of this report, a student may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person may be counted in more than one racial/ethnic group.

The definitions for these categories are:

Non-Resident Alien. A person who is not a citizen or national of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. Resident aliens, who are not citizens or nationals of the United States and who have been lawfully admitted for permanent residence *(and who hold alien registration receipt cards – Form I-551 [153])*, are to be reported in the appropriate racial/ethnic categories along with United States citizens.

Non-resident aliens are to be reported separately, on the lines provided, rather than in any of the five racial/ethnic categories which follow.

Black, non-Hispanic. A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).

American Indian or Alaskan Native. A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander. A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

Hispanic. A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

White, non-Hispanic. A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

The manner of collecting the racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data. One acceptable method is a properly controlled system of post-enrollment self-identification by students. If a self-identification method is utilized, a verification procedure to ascertain the completeness and accuracy of student submissions should also be employed where feasible. In order to provide reasonably accurate data, the institution may require students to complete a questionnaire and/or identify themselves by name or otherwise when providing information. The fact that the information is being gathered in compliance with Title VI of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972 indicates that it may be disseminated in the manner and to the extent that the institution deems appropriate.
